NEW YORK, NY

Job Application for Dev Ops Engineer

Dear Street Easy

I hereby declare my interest in your open position for Dev Ops Engineer at your NYC location. I have an extensive technical background with a PhD in physics. During my stay at the University at Buffalo, I maintained and implemented the graduate student computer lab. We utilized Debian, Kerberos, OpenLDAP, OpenAFS and Python for administrative tasks. I am currently working for IPsoft as a Unix/Automation engineer where I Have provided Unix related automation using Ansible and IPautomatas.

Sincerely,

Jeffrey P. Hafner
