I am a geek, a skeptic and I wear bowties for fun. I have been a physics teacher for two years, and been a Unix Engineer for two years, and was described on my 2017 performance review as highly innovative. This is due to my boundless energy, that seeks out a solution to everything.

# Experience \_\_\_\_\_

### **Unix Linux Systems Engineer**

New York, NY

2014-2015

Aug 2016-Mar 2018

IPSOFT INC

- Manage IT infrastructure of high profile clients
- Monitored client environments and developed automation to resolve issue
- Provided automation to clients using Ansible, for example patching
- Had commendable communication with key clients, McKesson

**Physics Teacher** Dobbs Ferry, NY

MASTERS SCHOOL 2015-2016

- Teaching 11<sup>th</sup> grade and AP Physics B Mechanics
- An example lesson plan and lab report template used
- Utilized a unique assessment system that allowed infinite redos

**Physics Teacher** Baltimore, MD

- BALTIMORE CITY PUBLIC SCHOOLS · Teaching physics first at Mervo
- · Utilized a unique assessment system that allowed infinite redos

## Education

**University at Buffalo** Buffalo, NY

Ph.D in Physics Aug. 2006 - Feb. 2012

**Andrews University** Berrien Springs, MI

B.S./M.S. IN BIOPHYSICS AND MATHEMATICAL STUDIES Aug. 2001 - Aug. 2006

# **Projects**\_

### physicsAMC

PHYSICS TEACHER multiple locations

2014-2016

- A comprehensive physics exam bank that utilizes an Ipeg parser for question selection.
- This project enabled me to use an infinite redo policy on all assessments, without punishment, which was an important motivation for this project, and created some of my favorite memories.
- this project utilizes ET<sub>F</sub>X, lua, lpeg, and tikz for graphics, and contains more than a 100,000 lines of code.
- sample-exam

## **Publications**

2009	Approximate normal mode analysis based on vibrational subsystem analysis with high accuracy and	Hafner J. & Zheng
	efficiency, Journal of Chemical Physics	W.
2010	Optimal modeling of atomic fluctuations in protein crystal structures for weak crystal contact interactions,	Hafner J. & Zheng
	Journal of Chemical Physics	W.
2011	All-atom modeling of anisotropic atomic fluctuations in protein crystal structures, Journal of Chemical	Hafner J. & Zheng
	Physics	W.
